

MY GATEWAY CAREER WEBSITE

The Mississippi Partnership Workforce Area has created an online portal for its WIOA Youth programs that includes modules for:

- Application, Intake, and Case management
- Online Orientation
- Professional Development
- E-learning for Career Readiness
- Participant Timesheets

Our online portal can be accessed at www.MyGatewayCareer.com. Any individual may apply online for our services. It will be the WIOA Youth Provider's job to make a determination on if the individual should continue with the application process on www.MyGatewayCareer.com or if the individual should be referred to another program.

All youth should be enrolled in to the WIOA Gateway Youth Program utilizing the My Gateway Career website.

All youth must complete Essential Job Skills prior to being placed in paid work experience. Youth may complete the modules for Essential Job Skills on the My Gateway Career website or the youth provider may teach the Essential Job Skills in a classroom/workshop setting. All youth must take the Essential Job Skills quiz that is available on the My Gateway Career website and score a minimum of an 80 on it to successfully complete Essential Job Skills. Youth may review the Essential Job Skills modules as needed and may take the quiz multiple times in order to attempt to score a minimum of 80.
